

# SCASCA INFECTION CONTROL SEMINAR

Everyone who works in the ambulatory surgery center industry knows that ASCs offer high quality care to our patients. Key to that quality care is each center's infection control program. These programs give centers the opportunity to demonstrate and document how they deliver care safely and with the best interest of their patients.

But how do you know if you are doing it right? With the fast pace of your center, increased regulatory changes, changing recommendations, and possibly even staff changes, it is hard to keep up and cover all the bases.

SCASCA has partnered with STERIS Corporation to provide your ASC's staff with a one-day seminar. STERIS Clinical Education Specialist, Arthur Henderson, is an infection control expert who works with ASCs daily on best practice and how to meet sterilization and infection control requirements.

Make plans now to join us back in person for the first time since 2019! Take part in this opportunity to gather and discuss industry best practices related to sterilization and infection control.

## AGENDA

### Surveying a Sterile Processing Department-ASC (1.5CEs)

- Review infection prevention challenges, specific to ASCs
- Identify areas for improvement that focus on decreasing health care infections

### The Eyes Have It! Ophthalmic Instrument Reprocessing and Understanding Short Cycles (1CE)

- List three processing difference between eye and other surgical instruments
- Identify when short cycles, steam sterilization is appropriate.
- Create a plan to avoid common pitfalls of eye instrument processing

### Sterility Maintenance Concepts (1CE)

- Describe the process of maintaining sterile packaging integrity
- Identify contaminating events that compromise sterility maintenance

### New Clinical Evidence for Endoscope Processing Is In. Implement ANSI/AAMI ST91 Today! (1CE)

- Identify key clinical evidence driving the changes in ANSI/AAMI ST91
- Implement ANSI/AAMI ST91 guidelines to develop a comprehensive department for GI, bronchoscopy and other flexible endoscope processing
- Prioritize critical processes and applications for patient safety

### ANSI/AAMI ST 79 Game of Your Knowledge (1CE)

- Interactive game to verify endoscopy content knowledge

## MEET THE SPEAKER

### ARTHUR HENDERSON

SENIOR CLINICAL EDUCATION SPECIALIST  
STERIS CORPORATION

Arthur has over twenty years of experience as a registered nurse and has worked in a variety of specialties including gastroenterology, open-heart and neurosurgery, and cardiothoracic intensive care. Currently he is a Senior Clinical Education Specialist representing STERIS Corporation. His areas of responsibility include education, clinical support, troubleshooting, and issues concerning sterilization and infection control.
